

Please join us in recognizing

National Red Ribbon Week

October 23 – October 31, 2008

The United States Drug Enforcement Administration and DePaul's National Council on Alcoholism and Drug Dependence - Rochester Area encourages parents in our community to take time to talk to your kids about substance abuse.

We urge parents to:

- Safeguard all prescription medications at home
- Properly dispose of all unused medication
- Set clear rules for teens about all prescription use such as following proper dosages and not sharing prescriptions
- Host safe, alcohol-free activities and events for youth
- Refuse to supply alcohol to youth or allow drinking in your home or on your property
- Be home when your teenager has a party and make sure your teenager's friends do not bring alcohol into your home

For more information or to schedule a presentation contact:
